

Dubai Marina

DUBAI MARINA TOWERS

Dubai Marina Towers were part of phase one of the prestigious Dubai Marina development. These six towers all individually named offer a variety of high quality and distinguished living options. Named after precious stones, Murjan, Al Mass, and Fairouz are 37, 28 and 20 storeys respectively. The other three, named after Arabic scents are Mesk with 37 storeys, Yass with 24 storeys and Anbar which has 16 storeys.

The towers offer one, two and three bedroom apartments, and three and four bedroom Marina Home villas. This project also features the very popular Marina Walk, housing top class restaurants such as The Royal Orchid and The Rupee Room, a host of family dining outlets including the incredibly popular Johnny Rockets, boutiques, service outlets and a good sized supermarket. Well settled and maintained with beautiful landscaping and pleasing water features, Marina Towers have fast become one of the most popular addresses in new Dubai.
